

## Machine Learning Bootcamp 2021 Tutor Signup

Sign Up - <https://forms.gle/LVCF8SNz9hnZV5Cw8>

Hi! We are looking for an experienced Machine Learning tutor to help teach one of the 5 weeks' content on fundamental machine learning topics including Concepts Introduction, Linear Models, Tree-based Models, Practical Tips, Neural Network, etc.

For each week's teaching, an ideal candidate would be someone from the industry or Master/PhD student who can commit 10 hours of their time for teaching and preparing contents. We have suggested [teaching materials in jupyter notebooks](#) and the tutors can also develop their teaching materials at their own preference (ppt/jupyter notebook) following our proposed [topics](#).

### Who We Are

The organizers of the event come from [GDG Cloud Edmonton](#), [AlbertaAI](#), and [Careera](#). We share the same vision of helping more people understand machine learning and AI in general, and start a career in data related fields. Learn more about our [past two bootcamps](#).

### Timeline

Sunday 1:00 - 4:00 MDT  
June 20 - July 25

### What You Will Get

We are flexible in how to get you rewarded (e.g., compensation and certification). We will follow up with you once you sign up and we can discuss in details! Thanks.

*Please sign up before June 6 - <https://forms.gle/LVCF8SNz9hnZV5Cw8>*
